

FlyTrap Commercial: flying insect control solution for commercial facilities

FlyTrap Commercial is the flying insect control unit designed for commercial premises where such control is of critical importance, like kitchens etc. The unit is made of high quality materials and parts. The total power of tubes used in FlyTrap Commercial is 16, 30, 40 and 80 watts. The unit can either be mounted on a wall or suspended from the ceiling. There is also an IP65 version of FlyTrap Commercial, which can be used outside and in dusty and humid spaces. All units of this line accommodate YUTEC GB glueboards that have pheromone additives and non-drying glue ensuring prolonged service and increased insect control efficiency.

Specifications

Model	Body color	Protection (m ²)		Information		UV tube, type
		Op.	Max.	Dimensions (mm) L x W x H	Weight (kg)	
FTC 16	White / Stainless steel	40	120	320 x 240 x 105	3,0	Y508 T5L
FTC 30-mini	White / Stainless steel	60	180	320 x 240 x 105	3,0	Y515 T5L
FTC 30	White / Stainless steel	80	240	470 x 350 x 155	4,0	Y615 T8L
FTC 40	White / Stainless steel	120	360	630 x 350 x 155	5,0	Y620 T8L
FTC 80	White / Stainless steel	240	720	630 x 350 x 155	5,0	Y640 T8L
FTC 30 = IP65	Stainless steel	80	240	495 x 350 x 155	4,2	Y615 T8L
FTC 40 = IP65	Stainless steel	120	360	655 x 350 x 155	5,2	Y620 T8L
FTC 80 = IP65	Stainless steel	240	720	655 x 350 x 155	5,2	Y640 T8L

Mounting options

The unit can be mounted on a wall, suspended from a ceiling or put on a table.

Dustproof and moistureproof design

IP65 certification. You can use a water hose to clean a unit of this type.

Highly efficient UV tubes

Features special tubes that are superior to conventional UV tubes.

Shatterproof tube(s) as an option

The unit can come with shatterproof tubes should such be required by operation conditions.

Innovative glueboard

The unit accommodates YUTEC GB glueboards impregnated with pheromone to ensure the best insect attraction properties. Glueboards also make the unit silent and hygienic.

Rugged construction

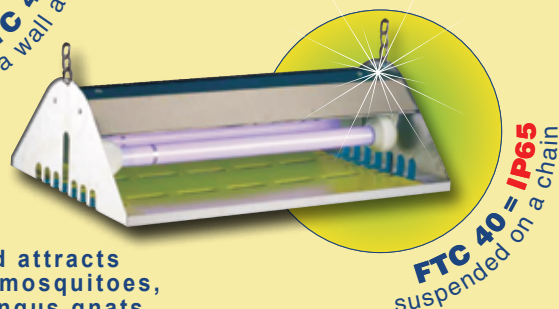

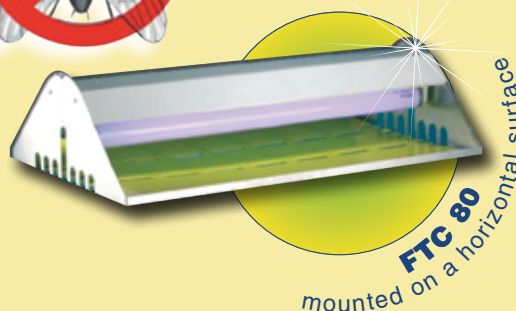

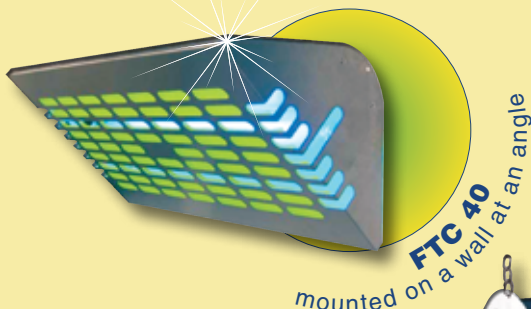

All models are made of either painted metal or stainless steel.

Quality certificate

Independent RoHS tests prove the unit's compliance with the Euro standards, SanPiN and GOST-R. Confirmed by relevant certificates.

Reliability

Guaranteed service life of at least 3 years (excluding tubes and starters).

KILLS

**ABSOLUTELY ALL FLYING INSECTS:
FROM SMALL MIDGES TO CHAFER AND LOCUST**

The special pheromone impregnated glueboard attracts and unfailingly kills insects such as midges, mosquitoes, flies, wasps, moths, horseflies, whiteflies, fungus gnats, chafers, locusts, tobacco beetle, carabus, etc.
