

Flying insect control equipment

MAP Ltd. (Russia) and P&L (UK) thank you for the good choice you have made. We are sure you will not regret it.

All units are made of metal, resist corrosion and remain in good condition for many years.

This information applies to the following models: MED15W/MED25W/MED30W/MED40W/MED50W

Specifications

Model	Body color	Power consumption	Protection (m ²)		Information		Tubes, type
			Op.	Max.	Dimensions (mm) L x W x H	Weight (kg)	
MED-15W	White	20 Bт	50	150	210 x 190 x 360	3,8	Y815 U
MED-25W	White	30 Bт	80	250	210 x 190 x 405	4,3	Y825 U
MED-30W	White	35 Bт	100	350	210 x 190 x 445	4,6	Y830 U
MED-40W	White	45 Bт	120	400	210 x 190 x 475	4,9	Y840 U
MED-50W	White	60 Bт	150	500	210 x 190 x 550	5,7	Y850 U

Please find your unit's model name and operating voltage on the bottom of the removable tray.

Classic design

Small-sized units designed in classical style.

High-quality components

Reliable and powerful 3750 V transformer, backbone of the unit's operational safety

Great protection area

Bright, top to bottom tubes and maximally open sides secure protection of up to 150 m²

Highly efficient UV tubes

The unit features special tubes that are superior to conventional UV tubes and can be supplied with unbreakable (shatterproof) tubes.

Multiple mounting options

Mounted on a wall, suspended from a ceiling and placed on a table.

Innovative grid

Large unique triangular grid providing greater insect control efficiency.

Easy cleaning and maintenance

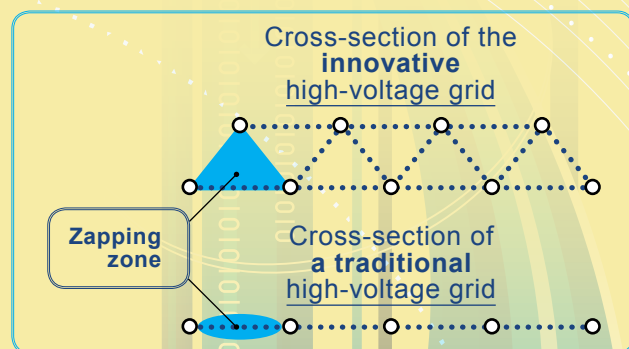

Removing the tray automatically cuts off the power, so cleaning the unit is an easy, quick and totally safe procedure.

Quality certificate

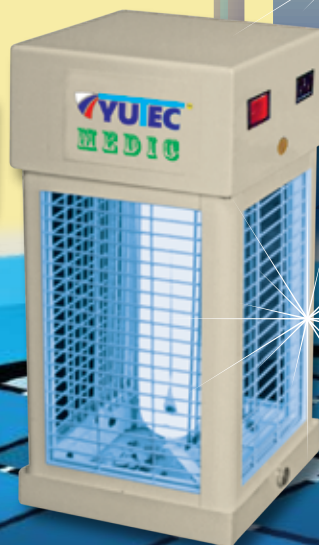

Complies with Euro standards, SanPin and GOST-R.

Reliability

Guaranteed service life of at least 3 years (excluding tubes).

MED-15W
Height = 360

MED-25W
Height = 405

MED-40W
Height = 475
